**ROAN COWS IN THE SALE.**

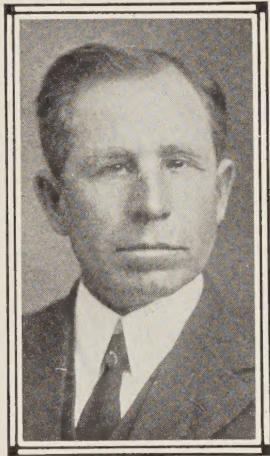

# INTRODUCTION

**I**T IS WITH particular pleasure and pride that I extend to you a personal invitation to attend my Annual Spring Sale of Shorthorn cattle to be held on my farm near Watonga, Oklahoma, Tuesday, May 15, 1917.

I desire that all my friends and customers, and lovers of highclass Shorthorns will be with us all day. I know that this is by far the best consignment of Shorthorns I have ever made, and I feel assured that the offering will attract the attention of the most critical buyers and judges of the breed.

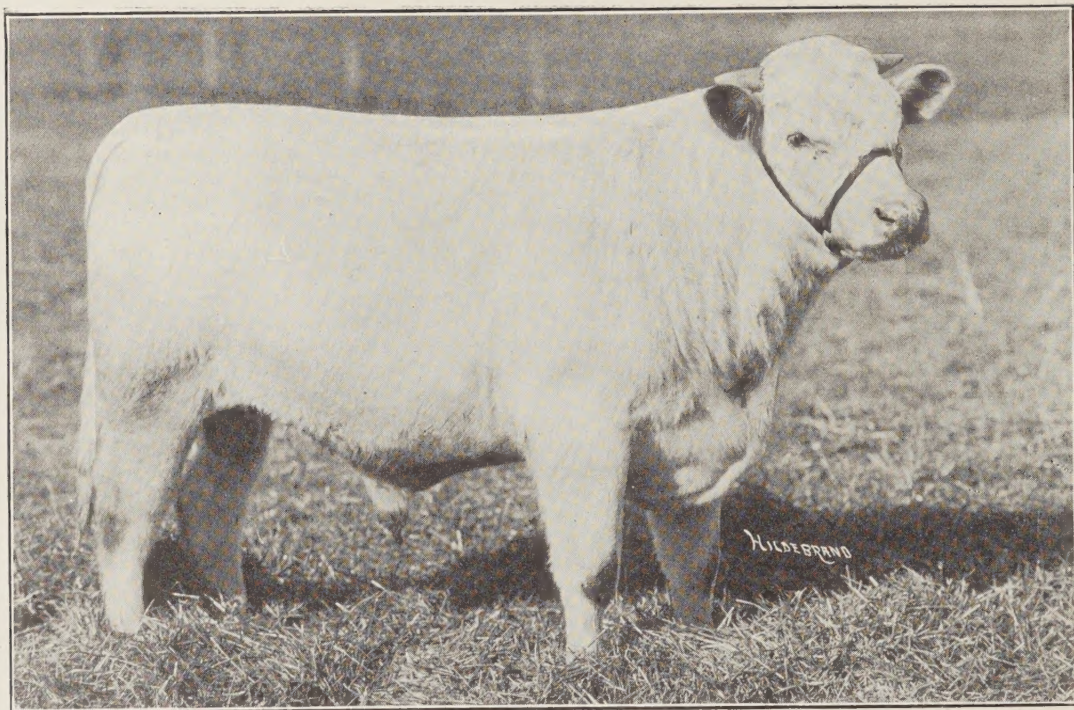

Forty head of females are cataloged, of the very best breeding, with either calf at foot or safe in calf to FAIR ACRES SULTAN, whose get were undefeated at the big state and national shows of 1914, a celebrated son of the world's greatest bull, WHITEHALL SULTAN; WATONGA SEARCHLIGHT, who required no introduction to students of Shorthorn history in the Southwest; or AVONDALE'S CHOICE, whose get is outstanding and undefeated wherever shown in 1916. Every lot number in the sale might well be featured as a special attraction. Included are three superb imported cows with splendid imported calves by their sides, and all re-bred to FAIR ACRES SULTAN; the great show cow, Hallwood Lavendar 3rd, Grand Champion at Kansas City, and sweepstakes over the Grand Champion bull; Maxwalton Jealousy 2nd, with white bull calf at foot by WATONGA SEARCHLIGHT; Maxwalton Averne, with roan bull calf by FAIR ACRES SULTAN; Cumberland Gladsome, by Cumberland's Best and sister to the \$1,650 heifer in the Sanders 1916 sale, in calf to FAIR ACRES SULTAN; Lady Cumberland, another daughter of Cumberland's Best, in calf to FAIR ACRES SULTAN; Gladsome 6th, the dam of the \$1,650 heifer in the Sanders Sale, bred to AVONDALE'S CHOICE. And, on and on, through a grand list of females which will have to be seen to be appreciated. Summing them up as a whole they are each and every one the acme of breeding and quality eminently qualified to grace the best herds in the land.

I do not believe that Shorthorn enthusiasts seeking capital selections in prospective herd-heading show bulls of superb character in blood lines and high individual merit can afford to pass up the bulls consigned to this sale, including Pleasant Dale's Choice, one year old last September, a wonderful young herd and show bull. He was undefeated in class in 1916, and is sired by Avondale's Choice, and out of Pleasant Snowball, Junior and Grand Champion at the National Breeders' and Feeders' Show; Pleasant Dale 4th, a January 2, 1916, calf by Avondale's Choice and out of Maxwalton Averne, and he was undefeated in class in 1916; Pleasant Fair Acres by Fair Acres Sultan; Jealousy's Lord by Belle Searchlight; or Watonga Headlight by Watonga Searchlight and out of Lavender Bloom 2nd.

Hoping you will be with us on Pleasant Valley Stock Farm on May 15, I am with best wishes

Very truly yours,

H. C. LOOKABAUGH.

This introduces Young Fair Acres, by Fair Acres Sultan, out of Maxwalton Avere. A full brother to Young Fair Acres sells with Lot 9.

# Why I Am Breeding Shorthorns

YEARS of experience in grain farming drove me to the conclusion that it was necessary to have different kinds of live stock on the farm in order to utilize all that was produced and convert it into a higher priced product. After I had accumulated several head of ordinary cattle, I naturally developed a tendency to want to feed some for the market. Keeping books on my farm, and on the feed lot, and figuring it up at the time of the spring invoice, taught me that the cattle I was feeding were not making any profit. Investigating this point, I discovered that the cattle I had been feeding did not have good enough quality—that is, they did not have the real blood in them that caused them to respond to feed and care fast enough to pay for their feed, and when they were finished they did not have the smoothness that made them bring the higher prices per pound.

I was advised to buy a good registered Scotch bull, in order to raise steers that would have more quality and fleshing ability. Not knowing anything about the word “Scotch,” or what it meant, but undersanding that the word “registered” meant a purebred bull, I first investigated all the various breeds of purebred cattle before I diagnosed the origin and character of the Shorthorn. I did not like the Shorthorns because they were of different colors and had horns. But I found by a long investigation, that in order to get the farmer’s cow that I was after—the cow that contained milk and beef qualities, combined with a good disposition, and the cow that would grow the largest and prove the most valuable—that is, would make more profit for the farmer—I must take the breed of cattle that had been bred hundreds of years by our forefathers to suit the exact requirements on the farm—namely, the Shorthorns.

Fortunately, for me, in buying my first registered bull, I accidently told the auctioneer, Col. Bob Har-  
riman, of Bunceton, Mo., who was assisting me in my purchase, that I wanted a registered Scotch bull to use on grade cows to produce better quality feeding steers. My experience, from the use of this bull, so much exceeded my expectations that my curiosity was aroused and I investigated more closely the reason the calves from this registered sire weighed so many more pounds at weaning age than the ordinary calves, and why the yearlings, with a light ration of grain and alfalfa hay, had gained repeatedly through the winter, and weighed almost as much at a year old as I expected them to weigh at two years. I thought, how foolish I was not to see this point sooner. At this time, I compared the development of this improved blood with the development of the different pieces of improved machinery and farm implements of all kinds. Not satisfied with this, I came to the conclusion that if an animal was so much better by being only from a registered sire, it would still be better if it had both a registered sire and a registered mother.

At this time, feeling it my duty to scatter among my friends and neighbors some of the good news I had discovered, I drifted from the thought of feeding steers to the idea of raising good young bulls that would help improve the stock of my vicinity. I felt then that later on I would go back to feeding steers and would have the advantage of the improvement of this blood in the steers I would buy to feed. I had been

gradually acquiring more cattle, because my invoice of each year showed that there was more profit in the cattle department than in some of the others. But as time proved, the registered calves from the registered cows and the registered bulls were so much more profitable, I realized the necessity of buying more, even all, registered females, as it was my intention to keep that same money that I had invested in cattle accumulating year after year until cattle got high. Necessarily, in order to be able to pasture and feed the number of dollars worth of cattle as they multiplied each year, I would have to invest more money in one cow and not have so many cows. As the profit from the registered \$100 cow and registered bull, in producing a calf that brought \$100, was far greater than the profit from a \$40 grade cow and a registered sire, producing a \$40 calf, I concluded to sell my grades and buy all registered females.

Now, here is where the fight began. I supposed all registered animals were the same, but I found out that there was a difference among them. I did not understand why this difference existed among registered cattle. Upon investigation, I learned that 30 years ago cattlemen were breeding what they called seventeen-hand Shorthorns—upstanding, rough, bony, thin-haired, with fine cut head and chin, and narrow over the crops, because they thought such cows would produce more milk. In other words, they went to extremes. They bred the constitution out of them by narrowing them over the heart girth and shortening their hair. They bred the quality out of them by getting them too rough and bony, leaving them without the fleshing ability to respond to feed. Consequently, farmers, stockraisers and feeders, as well as range men, did not want them.

It was at this time I discovered that the breeders conceived the idea that if they would go to Amos Cruickshank of Scotland (who was an old bachelor and considered a crank in those days, because he was developing a type of Shorthorns he thought was the best, regardless of what the other fellow thought) and buy one of those low, heavy-set, thick-fleshed, long-haired, good heart-girthed bulls and breed him to the American cows, that they would get a better type of cattle. They did so, and the change was remarkable. The first cross shortened the legs, lengthened the hair, produced greater width, developed the flesh, and developed an animal of a more rugged constitution. The offspring from this sort of a cross, I learned, was an animal of one Scotch top. If it was a heifer, and at the proper age mated with another Scotch bull, their offspring would have two Scotch tops, and so on, until there would be a number of Scotch Tops, developing an animal that would prove much more profitable to the farmer, feeder and ranchman.

Of course, I realized and appreciated the fact that it was much cheaper to improve the quality of my registered herd by the use of a good Scotch bull. Not being satisfied with that, and realizing that when I had changed from the grade cow to the registered cow, although I had been using a registered bull and had made a big improvement, I felt that possibly, as I had often been told, that if I would secure some of the very best producing Scotch females of the best producing families of Scotch, I would raise a class of cattle far superior to the ones I had been raising. I realized by this time that a breeder's future reputation depended entirely upon the stock he produced, and felt that life was too short to travel over the same road that my forefathers had traveled, when it was possible in a few days, by buying some of these very best females at a higher price, to have seed stock equal to the best, and that from then on my product would be, necessarily, of a better quality.

I began searching for what was called "Scotch cattle." Fortunately, I was advised by a number of good breeders that the best producing families were the higher priced, but the cheapest in the long run. I found, when examining a number of the best eastern herds, that whenever a family was noted as one of the best, the reason was that it had been producing the best offspring, and that that family had made a reputation from their individual superiority. Invariably, when I would find the animal that just suited me, the breeder would ask from \$500 to \$1,000 for it, and would end up by saying, "Why, that is one of the Violets," or Lavenders, or Avernies, or Jealousies, or Clippers, or Lovelies, or Ramsdens, or Golden Ladys, or Victorias, or Buttercups, or Acrons, and so on. In other words, I found that the best breeding came higher, but I was not discouraged with that. After I had priced a large number of Shorthorns, I selected the females I preferred, regardless of the price, a great many times running into a hornet's nest with the breeder because he did not like to let that kind go.

I also had drifted from the idea I first had, that I wanted them all reds or roans, and gradually grew to think more of the picture of the reds, whites and roans on a green pasture. I endeavored not to lose sight of the individuality, especially when I found it coupled up with one of these good breeding families that had come through the hands of good breeders who had made a success of the breeding business. It is not so much the word "Scotch" as it is the families of Shorthorns that produce those thick-fleshed, easy-feeding, fast-growing, good-quality animals that have a good milk flow and a quiet disposition. I realized that it would be a hard fight to convince the farmers and stock raisers of the Southwest that they could grow as good cattle as were grown in the northern states, but I am proud to say that that fact, I think, has been clearly demonstrated and also that our country is full of good men who are willing to spend their money for better cattle when they are sure they are making the proper investment.

For the past several years we have been showing cattle in the northern states—Iowa, Missouri, Nebraska and Kansas—as well as in a number of the southern states, including Oklahoma, Texas, Louisiana, Mississippi, Alabama and Arkansas. Last year at the different state fairs we won 75 blue ribbons, 20 purple ribbons, champions and grand champions, and transacted over \$250,000 worth of business with hundreds of satisfied customers. While we have never shown our cattle so frequently in the West, it is my intention, in the next few years, to give the western fairs every assistance possible in developing as strong an exhibit of livestock as they have in the northern and eastern state fairs.

In conclusion, I will say that words are not in my vocabulary to explain how sincerely I appreciate the many kind words from our friends. I am in the business because I like it; because I feel it my duty as a citizen to be of all assistance possible to my family, my community and my country. It is not so hard to make money as it is to make it without injuring your fellowmen. There is a satisfaction and a pleasure in this business that I have failed to find in others that I once thought of considering. If I have a customer who is dissatisfied I want to know it, for I believe in the goods I am selling and want to back them up.

Yours for more and better Shorthorns in the Southwest.

H. C. LOOKABAUGH.

Product of the Pleasant Valley Stock Farm.

## General Information

**Location**—Watonga is located on the Rock Island railroad, 61 miles southwest of Enid, 65 miles northwest of Oklahoma City, 87 miles south of Alva and 135 miles north of Waurika.

**Location of Farm**—Pleasant Valley Stock Farm is located  $3\frac{1}{2}$  miles north of Greenfield, 2 miles east and  $4\frac{1}{2}$  miles south of Watonga, 2 miles west and 10 miles north of Geary. No postponement on account of weather.

**Entertainment**—Free transportation to and from farm. Those coming from a distance, will stop at the Hotel Fisher, at Watonga, as my guests.

**Guarantee**—All animals of breeding age are guaranteed breeders. Those with calves at foot or heavy in calf, are considered breeders, and no further guarantee given. All animals that do not prove breeders, can be returned in good condition, and after a reasonable trial, if we cannot get them to breed, an animal of equal value will be given in their place. Any animals that prove not to be with calf may be returned and we will breed them free of charge, owner to pay transportation expenses. All animals at owner's risk, after bid off.

**Terms**—Cash or a bankable note bearing 10 per cent interest with approved security.

**Shipping Directions**—Stock to be shipped will be loaded on board the cars, free of charge. Purchasers will please fill out the shipping instructions in the back of the catalog and leave it with the clerk at the time of settlement.

**Train Service**—Train number 728 north from Oklahoma City, arrives at Watonga at 9:30 a. m. daily. Train number 704 north from Waurika and Anadarko, arrives at Watonga at 1:40 p. m. Train number 728 south from Alva, arrives at Watonga at 7:01 p. m. Train number 703 south from Enid, arrives at Watonga at 1:15 p. m. Parties coming from Oklahoma City should leave on the 6:55 train, arriving at Watonga at 9:30. Parties coming from Kansas City should leave on the 7:35 train in the evening. Direct connections to

Watonga. You will arrive the next morning at 9:30. Parties from Little Rock, Arkansas, should leave Little Rock on the afternoon train at 1:50 the afternoon before the sale, and will arrive at Watonga at 9:30 the next morning. Parties from Fort Worth leave on the evening Rock Island Train. Direct connections to Watonga, arrive at 9:30 the next morning.

**Special Pullman Service**—From Watonga to Tulsa the night of May 15, arriving at Tulsa the morning of May 16 for the Shorthorn Sale there.

**Mail Bids**—We would much sooner have you here in person, but if it is impossible for you to be here, you can send your bids to either one of the auctioneers, or the field men, or to Frank Harding, Secretary of the American Shorthorn Breeders' Association, in our care, and we assure you, they will be handled with care and good judgment.

**Auctioneers**—Col. Carey M. Jones of Chicago; Col. Floyd Hurt of Kingfisher; Col. Ed. Herriff of Apache; and Col. Bert Odell of Eagle City.

**Attend These Shorthorn Sales**—H. C. Lookabaugh sale, May 15 at Watonga, Okla.; and the Tulsa, Okla., sale May 16.

**Field Men** Breeders Gazette, Mr. Miller, Chicago, Ill.; Farmers Mail and Breeze and Oklahoma Farmer, A. B. Hunter, Wichita, Kan.; Iowa Homestead and Farmer and Stockman, G. W. Berry, Topeka, Kan.; Oklahoma Farmer-Stockman, Tom Morton, Oklahoma City, Okla.; Drovers Telegram, Lyman Mitchell, Kansas City, Mo.; Shorthorn World, Chicago, Ill.

## FAIR ACRES SULTAN

**F**AIR ACRES SULTAN, one of America's greatest sires, was sired by the justly celebrated Whitehall Sultan and out of Snowbird, one of F. W. Harding's great breeding cows. This brother of Avondale, when properly mated, will bring to Oklahoma breeders some wonderfully prepotent blood.

The "get of sire" and "the calf herd," exhibited in 1914, the get of Fair Acres Sultan, was never defeated that year though shown in the strongest company. This is ample evidence of the prepotency of this great bull as a sire of surpassing merit when mated with females suitable for such a union.

The Shorthorn breeders of America should avail themselves of the opportunity to secure some of his calves, and the cows and heifers bred to him, whenever possible.

W. L. CARLYLE.

**Fair Acres Sultan 354154.** White; sired by White Hall Sultan, the greatest Shorthorn bull ever used in America; dam Snow Bird, a great show heifer that won 1st as junior yearling, junior champion and grand champion at the 1908 American Royal. Snow Bird is a full sister to Snow Flake, the sire of Ringmaster, a bull that has won more championships than any bull ever shown in the United States. Fair Acres Sultan was 1st prize aged bull and senior champion at Illinois State Fair, 1913. He sired the 1st prize calf herd—junior and grand champion females at the same show. At the International, 1913, his get won 1st and 5th in senior heifer calves, 3d junior heifer calf, 2d calf herd. No such showing was ever before made with four calves sired by the same bull.

At the Iowa State Fair, 1914, his get won the young herd, 1st on senior yearling, 1st on junior yearling, junior champion female and 2d on get of sire. A bull sired by him is worth much to place at the head of a herd. His is the blood that breeds on.

**Lord Marmion 145339.** SIRE, Denmark 144612 by Bendigo 106460, out of Sunflower 6th V40-336E. DAM, Lady Mary 14th V45-721E by Mountain Gem (69161), out of Lady Mary 13th.

**Avondale Choice** is a thick, massive roan with beautiful head and wonderful depth. He is, perhaps, the thickest bull Avondale ever sired. He is of the stamp that can be looked for to make a great sire and his color and general appearance cannot be beat. This family has produced many noted winners, including the English and American grand champion, Choice Goods. Avondale's Choice is proving one of the greatest sires we ever owned. I cannot help but remark, when I look at the young things sired by him, just maturing to a year old, that he is going to prove another sire equal to his father. His get is marked with that deep, broad, thick-fleshed, and with the smoothness that always attracts the attention of a good judge. We have some young bulls which are causing a great sensation.

**Watonga Searchlight** is a bull that hardly needs any recommendation to the breeders of the Southwest. He is just the same type as his sire, and his dam is one of the best producing cows on our farm. She being out of Lancaster Bud, the Grand Champion female at the World's Fair at Seattle, Washington. He is an exceptionally good sire. The young bull, Pleasant Dale 3d, that sold for \$1250.00 is by him. A number of his get will be in evidence on sale day and you can see for yourself how he transmits that wonderful quality which so distinguishes his family, but when you study his pedigree you can hardly expect anything else, as all of his sires, on his sire's side, have been persistent winners in the show ring. He was grand champion at Hutchinson, Kansas, and the Oklahoma State Fair in 1914, of the Texas State Fair at Dallas, in 1915, and of the Colorado State Fair at Pueblo, 1916.

**First Choice 179847.** SIRE, Abbotsford 2d 151707 by Abbotsford 151706, out of Avenir 12th V40-356E. DAM, Merry Girl 6th V47-417 by Roan Prince 149959, out of Merry Girl 4th V40-334E.

**Pleasant Dale's Choice** is considered by some of the best judges to be one of the best young white bulls in the United States. His dam, Pleasant Snowball, that was Junior and Grand Champion at the National Feeders' and Breeders' Show, was exceptionally smooth, thick-fleshed and possibly the heaviest milker on Pleasant Valley Stock Farm. As a two-year-old she gave five gallons of milk a day. As a three-year-old when she dropped this calf she was giving between seven and eight gallons a day, when she took the milk fever and died which fact was grieved far more on the Pleasant Valley Stock Farm than for the loss of any other animal. Pleasant Dale's Choice is a marvel of smoothness, finish and character and I have been advised by many of my friends not to sell him. He was undefeated in class in 1916.

Pleasant Dale 4th, a brother to the bull that Lee R. Patterson bought in my last March sale for \$1,250. His sire is Avondale's Choice. You will travel many miles before you will see another such a bull. Men have come from California trying to buy this bull but I didn't expect to sell him. I expected to show him next year. He was undefeated in class in 1916, and I believe will win any place in the United States this year. I have been offered \$2,000 for this bull and it didn't take me long to refuse it. Come and look him over and you set the price.

*E. W. Sloan, Kingfisher, Okla. 8-22-15*

**Pleasant Fair Acres.** A beautiful roan son of Fair Acres Sultan of the Cruickshank Victoria family. His dam, Crimson's Daughter, was sired by a son of Avondale. This young bull is smooth, thick-fleshed, good character with great finish for the chance he has had as he has never been crowded. I look for him to prove himself one of the real herd bulls in the Southwest. There is no family of cows that have done more good in my herd than the Victorias. I have had the opportunity to sell this bull for \$1,000.

**Maxwalton Averno.** One of the most valuable matrons on the Pleasant Valley Stock Farm. This is the cow that brought four calves in one year, and eight days before the first pair of twins were a year old she brought the second pair. The bulls from these, one of them is at the head of Mr. Dunlap's herd and the other at the head of Mr. Fears' herd at Tulsa. Her next year calf, a white bull, I am keeping to show, is by Fair Acres Sultan. She has a beautiful roan calf at foot by Fair Acres Sultan, a full brother to the one I am keeping. Many a time I have refused to sell this cow at private sale. I am offering her to give you a chance at the best I have on the place. Her grand dam was IMP. Avalanche 2d, the mother of Avondale. Here is a chance to buy a real prolific cow with a herd bull at foot and bred again to Fair Acres Sultan.

**Young Butterfly.** A thick set, low, wide out young cow of the Cruickshank Mysie family, sired by Young Monarch, a great grandson of IMP. Gay Monarch that done so much good in the Robbins herd of Horace, Indiana. While spending the evening with Mr. Will Robbins in the spring of 1911 he told me of the interesting event of how his show heifer Ruberta beat Sicely, the Queen's heifer, and what a great demonstration there was about it and of the enthusiasm that the Queen's herdsmen demonstrated at the time, and of how he sold Imported Choice Goods and four other members of his show herd for \$25,000. After showing me the grave of Gay Monarch, we wandered back to his den where on the wall there hung the pictures of all the noted sires of his day, he pointed to the picture of Gay Monarch and said, "There is the best bull I ever owned." She sells with a heifer calf at foot, dropped October 21, 1916, by Royal Sultan. She was bred March 14, to Fair Acres Sultan.

Eunice 89989, is a wonderful cow, the mother of Type's Goods, the white heifer that sold in J. R. Whisler's Sale for over \$1100. Eunice sold in the C. A. Saunders' sale last June for \$1375. She now has a roan bull calf at foot, calved March 7th, that we have named Sir Cumberland's Type. He is by Cumberland's Type, the 36 times Grand Champion at that many shows. This calf will certainly make some one a valuable herd bull. You had better watch Eunice and her bull calf. She will be bred to Fair Acres Sultan.
